

ONE NATION *Manifeste*

Whereas

Earth is a gigantic living organism

An infinity of life forms coexist interdependently

Humanity holds a major influence on other terrestrial realms

Each human being is a unique and individualized cell of the planet

Resilience of an organism is reachable when cells are free to play their roles for the Whole and Its parts

I proclaim

My gratitude towards Life that animates all things.

My deep respect to all inhabitants of our earthly vessel.

The primacy of the biologic and conscious being that I am, over the legal entity created after my birth.

The legitimacy of my creative power as long as it excludes any form of theft, deception, moral or physical violence.

The absolute responsibility of my thoughts, words and actions generated by my free-will.

I undertake

To push away fear so that, with love, I take care of myself and every form of life

To seize my power of living human being and use it in the service of harmony

To resort to joyful and pacific disobedience whenever fundamental rights of the living are in danger
